May 2020

At the time of writing this report, Aotear thew Zealand is in the first week National Alert Level 2.

Responding to COVID9 Risk Levels

Within the overall national framework and guidelines, sestercific guidelines apply to each risk level. The University will continue to follow guidenes applicable to the tertiary sector.

The Government lowered the National Alert Levrehi 4 to 3 on 28 April. The Incident Management Team (IMT) developed ardiepth implementation plan to guide how the University

- x \$334m for additional tertiary education enrolments to meet demand arising from an anticipated COVID19 economic downturn.
- x \$320m targeted investment support for free trades training for all agestical industries including construction, manufacturing and vocational courses such as counselling.
- x Up to \$412m support for employers to retain and keep training their apprentices
- x \$19m for group training schemes to support apprentices
- x \$230m funding folWorkforce Development Councils and \$46m for Regional Skills
 Leadership groups to begin to provide the crucial industry leadership to support the COVID
 19 recovery through the provision of regional labour market disruption intelligence
- x \$141m to increase the ary education tuition and training subsidies by 1.6% to maintain the quality of learning opportunities
- x \$16 million boost to Adult and Community Education

Х

tuition fees this year to employees who habeenor will be impacted by redundancies spensions or significantly reduced working hours

In another example of agility, after a casual enquiry from an acquaintaa college of EngineeringDean, the College has apidly developed fast Track towards ining the second year of a BE (Hons) or any other technical degree in Engineering and Science. The courses started on May in conjunction with CUP and treathe new students as a specific cohort with their own mentors and special cately maths course. Collegeaks account of W X G previous ¶ engineering experience aisonot requiring a full complement of firstear courses.

Education- Accessible, Flexible, Futurfecused

UC is embarking on the journey to achieve its most ambitious goal: to stimulate and support academic development and innovation to become the best educator in Aotearoa New Zealand.

The events related to COVID- KDYH DFFHOHUD WSHra@g\Mokensu@Qut \equiv dut\dation W\¶V is accessible and flexible erm Two began on 20 April with all courses being taught online, and in the subsequent weeks many students have also completed online assessments. It is pleasing to note that the IT infrastructure and the learning Managemen System (LMS) have managed the increased demands well thanks to the hard work of Service and elearning teams.

The recent drops i6OVID-19 Alert Levelsenabled a limited number of fieldwork and campus activities to esume following a wellmanaged request and approval process to ensure the safety of everyone involved. Students have been supported

Staff

After the Government Ahnouncement Aotearoa New Zealand ould move to Alert Level 2, I spoketo staffvia a Zoom webinar about our return to campus. I congratulated staff on their hard work to get us to this stage and thanked everyone for their dedication to teaching and research, and for continuing to provide and supporting h-quality student experience. I also S R N H D E R X W 8 & financial position and the importance of proactively supporting the physical distancing, location tracing and safety plan initiatives to keep COVID out of UC when staff return to campus. Around 555 staff attended the webinar.

I also held an interactive Zoom meeting with the \$GPLQ 3OXV JURXS DERXW 8 & ¶V COVID-19 and there were about 90 participants.

A secondPulse survey was sent to staff covering the same areas as the last one so we can measure trends. The main focus is peogle/ Z H O The lessure being analysed at the time of writing.

After the government announcement advising a move to Level 2 an email wtheatseatme dato all staff advising that the campus would open to staff and students on Thursday 14 May. It covered thekey principles of our reopening and included information on the facilities point dates and times, Halls, parking costs, and supporting students. A keyargesto staff is to stay home if they are unwell or if they have health vulnerabilities and to return to the campus only after the safety plan for their area of operation hasen approved and the protocols are in place.
